N o man's name is more instructive connected with the history of MATERIA MEDIDA of the United litates, or more favorably known as a plonear in Made of Discovery, than that of

JOHN BULL, OF LOUISVILLE, KENTUCKY.

His Compound of Wild Cherry has become a household word throughout the West and South. His Worm Loxenges, in less than a year after their introduction attained a reputation as wide spread as the continent of NORTH AMERICA

But the crowning giory of his life remains to be attained in his discovery, or rather combination, for he does not claim to have been the discoverer of Canaow, which is the hasis of the Bitters now offered to the public. That hoor belongs as the native inhabitants of Central America to whom its virtues have been known for more than two hundred years. Armed with it the Indian bide defiance to the most deadly malaria, and handles, without fear, the most venomous serpends. It is a belief with them, that while line is breath in the bedy, the Gedron is potent to cure, no matter what the disease may be.
While Dr. Bull is not prepared to endorse this extravagant pretension, he is neverthelessa satisfied from a thorough examination of the eridence relating to its virtues, that a a remedy and preventantly for all measure staining from exposure, alther to change of weather or climate, or to missimatic influences, it grands

NEWS OF C. P. HALL. By a whaling vessel, arrived at New Lon-don, from the Arctic Ocean, advices have been received from Captain C. F. Hall, the explorer, who left the United States in 1864, explorer, who lett the United States in 1994, under the patronage of Henry Grinnel, Eq. Mr. Half's letters were expressed 150 miles over ice, on dog sledges, to reach the open sea. He has obtained much reliable information in regard to the Franklin expedition. Mr. Hall expects to spend the most of his time in King William's Land and on Boothic Fall Peninsula, and desires a vessel shall be sent in the spring of 1867 to bring him home. THE SENDING OF AMMUNITION BOUTS.

The regulations under which gunpowder, shot and percussion caps for sporting pur-poses may be sent South, have been decided on at the Custom House, and many permits to make shipments of these articles were issued to powder merchants and manufacturers of this city. The maximum amount of ammunition which may be sent to any one person in the South, is 500 pounds of powder, \$600 capased of land and 100 600 capased. 5,000 pounds of lead, and 100,000 caps Nearly all orders are small, comprising from five to twenty kegs of powder, with shot and caps for it. There is no danger apprehended from the shipment of these invoices. shot is all of the kind known as birdling. buckshot will, for the passent, be permitted

The Herald's Washington special says Orders have been issued for dismantling all forts around the Capital, but it will have no forts around the Capital, but it will have no immediate effect in reducing the number of troops in the District Aboat 6,000 volunteers still remain on guard duty, which takes them on duty every third day. As government property is removed and concentrated the labor is lessened. Regulars are awaiting assignment, but are not considered as belong-ing to the District.
